- supply skiwear for ROSSIGNOL, one of the top brands of ski equipment

business cases

- supplied the competition uniform for skateboarding team in Winter Olympics 2022.

business cases

➤ supplied the uniform for “the couple on the road” for their expedition to the extreme places on the earth including:

- extreme cold,
- acid raining,
- active volcano,
- tropical jungle,
-

2020南极之行专用队服

to the utmost points
couple on the road

FFC produces garments for extreme climatic conditions

In 2018, Fashion Flying supplied all functional garments for Zhang's team for their trip to the utmost points on the earth including:

- near north pole with average temperature of -30°C,
- the acid rain area,
- the tropical rainforest zone with high humidity,
- the desert with temperatures ranging from 0-30°C within one day.

With high performance fabrics, well considered designs and excellent workmanship, the garments worked well under the above extreme climatic conditions.

couple on the road - was released since 2013, and it is regularly shown on line in Peking, the biggest video website in China, as well as presented on CCTV and reported in USA and UK media. The couple and their team have travelled to Dymyadon, the coldest area to reach the north pole, the Great Wall Station at the south pole, and through the middle east and Liberia during 2013 to 2017.
